DELPHI, INDIANA.**

THE
Carroll Telephone Co.
Directory

Corrected January 1,
1916.

Delphi Exchange on Franklin Street,
DELPHI, INDIANA.

WHAT TELEPHONE SUBSCRIBERS SHOULD KNOW

1. To Call Central—Look in Directory for the number, take the receiver from the hook and place it to your ear, the Operator will answer, "number," then speak distinctly when giving the number to the Operator, continue listening and your party will answer; if line is busy or out of order, the Operator will inform you. Move the hook slowly up and down when you want to recall the Operator, her lamp signal flashes as the hook moves down, but she can not see it at all, if it flashes too quickly. If party fails to answer, party calling will be informed, "they do not answer." Speak into the mouth-piece when giving the number to the Operator and when talking over a toll line. Do not leave the receiver off the hook other than while talking through the telephone; in calling a party to the telephone to answer a call you should not restore the receiver to the hook as the connection may be taken down while you are gone to call party.

2. Call Toll Desk For Long Distance Toll Connections. You can assist in giving good service by using numerals only in giving an order to the Operator, thus 546 should be given as Five-four-six, 544 as Five-double-four, 56 as Five-six, 1224 as One-double two-four, 1352 as One, three-five, two.

3. This Directory Must Be Used To Gain Satisfactory Service.

4. Answer your bell promptly. A ring means a friend calling you. Do not make him wait. Failure on your part to answer at once may be the means of causing your party to hang up the receiver. If such is the case, the Operator has no way of telling who called you.

5. Until your bell stops ringing do not remove the receiver from the hook.

6. Call by number only; be brief but courteous to the Operator; we require them to be so to you. They have no time to converse with you; they do not know subscribers' names, they deal entirely with numbers.

7. In case of fire call Central and give distinctly the location of the fire. Be sure you are correctly understood before you leave the telephone. The Fire Department will be notified.

8. Subscribers are responsible for all toll charges for messages sent from their respective instruments and should refer all unauthorized persons to the pay stations for such service.

9. A charge will be made for moving telephones, covering actual cost of material and labor.

10. Do not expect perfection in a telephone service. Telephones, like people, have their weaknesses.

11. There are always three parties to a telephone call—the person calling, the telephone Operator and the person called, all are human, all must co-operate; courtesy will help all.

12. Do not use telephone during a storm.

13. All non-subscribers pay a toll of ten cents on country lines. Subscribers pay ten cents on all co-operative lines.

14. On party lines always ascertain whether the line is in use before ringing; if in use hang up receiver.

15. In calling over toll lines always notify Central immediately if you fail to get your party; otherwise you will be held responsible for the toll.

PARTIAL LIST OF TOLLS.
