WHAT TELEPHONE USERS CAN DO TO HELP THE SERVICE

CALL BY NUMBER, NOT BY NAME ! !

Speak distinctly, talk into the mouthpiece. If you do not allow the sound waves to enter the mouthpiece, thence to the transmitter, how can you expect the receiving party to hear your conversation?

Remember this: No community ever really enjoyed first-class telephone service unless the Telephone Company had the intelligent and hearty co-operation of its subscribers and the public.

Speak gently, remember your voice is the sounding board of your soul.

Golden Rule—Answer calls promptly as you expect to be answered.

Report names of habitual borrowers of telephone service. We will see them about installing telephones for their own use.

Listen carefully to the number the Operator repeats to you, after you have given your order; she may have misunderstood your order.

Answer your bell promptly, a ring means a friend calling you, do not make him wait, failure on your part to answer at once may be the means of causing your party to hang up the receiver; if such is the case the Operator has no way of telling who called.

Call by number only. Be brief, but courteous to the Operator—we require them to be so to you. They have no time to converse with you; they do not know subscribers names, they deal entirely with numbers.

For all changes or removals, notify the Operator and when leaving the city, so a record can be made and the Operator will know why you do not answer calls.

Call Bookkeeper for information regarding telephone rentals and contracts.

In case of fire, call Central, and give distinctly the location of the fire and number of your residence; be sure you are correctly understood before you leave the telephone. The Fire Department will be notified.

Delphi Exchange, 111½ E. Main St.
DELPHI, INDIANA

Office Phone, No. 62 Supply Room Phone, No. 3
If your trouble or complaints are not attended to promptly and satisfactorily, please report to the office Manager, No. 62.

Subscribers are responsible for all toll charges for messages sent from their respective instruments and should refer all unauthorized persons to pay station for such service.

A charge will be made for repairing broken telephones covering actual cost of material and labor.

Do not expect perfection in telephone service. Telephones like people, have their weaknesses.

There are always three parties to a telephone call—the person calling, the telephone Operator and the person called—all are human, all must co-operate—courtesy will help all.

Use the Directory—do not try to remember numbers, do not guess, look it up.

Do not use the telephone during a storm.

Hello means nothing. Please state either the telephone number, the name of the firm or the party answering. It will save valuable time and needless questions by doing so. You will help your service.

OFFICE CLOSES TO PUBLIC AT 6 P. M.

Bookkeeper’s Hours, 8 a.m., to 6 p.m.

WITH RENTALS OR TOLLS PAST DUE ONE MONTH, SERVICE WILL BE DISCONTINUED WITHOUT NOTICE.

PLEASE CONSULT this Directory before making calls. “INFORMATION” does not give out numbers for names which can be found in this Directory. OPERATORS know numbers not names.

Please read and follow instructions and your service will improve.

HERE’S A SAFE RULE FOR EVERYBODY: Consult the telephone book. Don’t rely on your memory. You may remember a number perfectly—but it may be someone else’s number, and not the one you want. No doubt “Central” makes mistakes. Voices vary in distinctness over the phone and the operator is human, after all. It is only when you do your best to call the right number and speak distinctly that you’ve done your part. It is then up to the operator.

ASK YOURSELF THESE QUESTIONS: Does any other company or store in town wait on me so uniformly promptly or cause me so little direct loss of time, as does the Telephone Company?

“Can I get the service of a clerk, a sales girl, a cashier, or of anyone else nearly as quickly, whenever I want them, as I can those of a Telephone Operator?”

We kindly ask you to help us help you to give best service possible. It takes both operator and patron working together.

Party-Line Subscribers are Urged to Hold the Telephone Only Five Minutes

FIVE MINUTES is usually sufficient to complete an ordinary business transaction by telephone.

If the telephone company saves work when party lines are "tied up" for long periods while people are talking, the policy is unfair to its other patrons and the practice is discouraged.

It is not a kind act to compel your neighbor to wait more than FIVE MINUTES while you hold the line—a call for a doctor or an important business transaction may be delayed.

"Do unto others as you would have them do unto you," is a good rule.

Appointment and Messenger Rates

Appointment calls are “person to person” calls, the order for which, provides that communication is to be arranged to take place at a specified time.

The “appointment” rate is about one-half greater than the “station to station” rate.

Messenger calls are person to person calls, requiring the use of a messenger, to secure attendance of a designated person, at one of the public stations, at the distant point. The rate is the same as the appointment rate, plus any charge for messenger service.

The above rates are computed on the day rate, whether the call is made during the day, or during the night, and the minimum charge is twenty cents.

No appointment and messenger calls are accepted, where the “station to station” rates are less than ten cents.

Report charges apply under the same general condition as specified, for “person to person” calls.

Telephone Toll Rates

TO OUR PATRONS:

Your attention is called to the advantages, and economies which may be had under our present toll rate schedule. State to the toll operator the class of service you wish, when making your call.

Collect Calls

“Collect Calls” are the calls for which charges are reversed; that is, one to be collected from the subscriber at the distant station, at which the call is completed.
Report Charges

Will be made in the following cases, where it is impossible to establish communication between particular persons, and cannot be secured within one hour. A report charge applies, (1) When the call party refuses to talk; (2) When the report is returned, and the person called is “out,” or “out, and will return at a specified time,” or “out, and time of return unknown,” or “absent from the city.” This charge is to cover compensation for the operating work performed, and use of toll circuits, and is about one-fourth of the “station to station” rate.

In any case where a report applies the minimum charge is five cents.

Standard Toll Night Rates

The following reduced rates, for night service, on a “station to station” basis only, are effective:

<table>
<thead>
<tr>
<th>Time</th>
<th>Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>8:30 p.m. to 12 Midnight</td>
<td>About one-half of the “station to station” day rate.</td>
</tr>
<tr>
<td>12:00 Midnight, to 4:30 a.m.</td>
<td>About one-fourth of the “station to station” day rate.</td>
</tr>
</tbody>
</table>

For the purpose of applying night rates, the time of day at the point at which a “station to station” message originates, is used.

The minimum night rate is twenty-five cents. Day rates apply on calls made at night, when the “station to station” charge is less than the minimum night rate.

Schedule of Charges for Service Connection, Moves, Changes and Change of Names.

For individual and party line service $3.50
For each extension station connected with any class of service 3.50
For moving a telephone set, from one location to another 3.50
For moving a telephone set, from one location to another, on the same premises 3.00
For change in type, or style of telephone set 3.00
For change of name, where service is already established .50

Station to Station Messages

A more efficient and economical use of the toll lines. You are requested when making your call to do so on the most economical basis. We urge you to use the “station to station” message whenever possible. Your order should specify the telephone station called, either by telephone number, or by name of the subscriber of the called station, stating, “I will talk to anyone.”

Charges for station to station messages cannot be reversed.

Person to Person Calls

Orders for person to person service, are accepted only under the condition that a limited charge; (to be known as a “report charge”) will be made. When the order is to establish communication with a particular person, and the conversation is held, the “person to person” rate applies. This service requires a greater amount of operating effort, and the use of the circuit so that rate for such calls is about one-fourth greater than the “station to station” rate.

Vacation Rates

A rate will be charged for the period when a subscriber is absent from his residence; one-half the regular rate will be charged when a subscriber is absent for a longer period than one month. No reduction will be made in the rate for a shorter period than one month.
